

## OLDEST CONDUCTOR ON ERIE INJURED

John M. Garrison, Aged 75,  
Struck by Switch Engine While  
Passing Around Rear of His  
Train in the Darkness.

HE WORKED FOR 57 YEARS.

Despite His Advanced Age, It is  
Hoped He Will Recover—Began  
Career When Horse Cars Ran Be-  
tween Paterson and Jersey City.

PATERSON, N. J., Oct. 22.—John M. Garrison, the oldest conductor on the Erie Railroad, and perhaps in the country, is in St. Joseph's Hospital in a critical condition. He is suffering from injuries received by being struck by a switch engine at Waldeck last night. Garrison had just completed a run and was passing around the rear of his train, when he stepped on the eastbound rails and was struck by the switch engine, which he had failed to see in the darkness. He is injured about the head, hip and body, but it is hoped that despite his advanced age he will recover.

Garrison was born in this city seventy-five years ago. He began his railroad career with the old Paterson and Hudson River road in 1846. The line was at that time a horse railroad from Paterson to Bergen, but soon after Garrison entered the employment of the Company steam was instituted as a motive power.

The cars were run over the tracks of the New Jersey Railroad and Transportation Company to Jersey City. There were only three trains a day, each consisting of two passenger coaches and several freight cars. The company had three passenger engines and two freight engines. The passenger cars were built on the English compartment principle and the conductor collected fares from outside of the cars.

The running time between Paterson and Jersey City was one hour. The stations were at Paterson, New York, and Jersey City, and the conductor collected fares from outside of the cars.

The railroad in those days was not as strenuous as it is now, and very old-timers say that it was nothing unusual for a train on this road to stop on the meadows and hunt for snapping turtles.

## GOVERNMENT TOWS CHATTANOOGA AWAY

Cruiser with the Torpedo-Boats  
Nicholson and O'Brien Taken  
from Elizabeth to the Brook-  
lyn Navy-Yard.

(Special to The Evening World.)  
ELIZABETH, N. J., Oct. 22.—Four government tugboats towed the Chattanooga and torpedo boats Nicholson and O'Brien to-day from the Crescent Shipyard to the Brooklyn Navy Yard, where they will be finished. A Government lighter carried away every particle of Government property. A large crowd of strikers of the yard witnessed the departure of the vessels.

Sheriff Correll, who has held the boats under libel, but relinquished his hold Tuesday, when the Government repossessed the cruiser, also saw the vessels leave.

The Government officials and inspectors employed on the vessels in the yard to assume other assignments. The cruiser and the two torpedo-boats were repossessed by the United States Government from the control of the Sheriff of Union County the day before yesterday. Sheriff Correll had held the Chattanooga on a libel for \$10,000 on a claim made by Babcock Wilcox, who supplied the boilers for the cruiser.

## ANOTHER POSTAL OFFICIAL GETS OUT

Chief William H. Landvoigt, of  
Classification Division, Re-  
signs by Request, Following  
Inquiry.

WASHINGTON, Oct. 22.—William H. Landvoigt, chief of the classification division of the Post-Office Department, to-day presented his resignation to Postmaster-General Payne. The resignation was requested by Mr. Payne as a result of the investigation by the inspectors of the charges growing out of the employment of Mr. Landvoigt's son in the General Manufacturing Company of Franklin, Pa., which had a contract for supplying patented registry books to the department.

Mr. Landvoigt was chief of the registry division of the department prior to his comparatively recent transfer to take charge of the classification work of the department.

ESCAPED IN LONG FALL.

Workman Dropped Forty Feet and  
Showed No Sign of Injury.  
PATERSON, N. J., Oct. 22.—Henry Delaney fell from the top of a smokestack at a rolling mill to the ground here and escaped practically unhurt. He was taken to St. Joseph's Hospital, where the doctors failed to find any traces of injury, although it was said he may have suffered some slight internal bruise. The man said he felt no ill effects from his fall.

**WM. VOGEL & SON,  
Broadway—Houston St.**

## CATARH A COMMON COMPLAINT.

Catarh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrh, then the sufferer begins to realize what a disgusting and sickening disease catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result. S. S. S. is guaranteed purely vegetable and a reliable remedy for catarrh in all stages. Write if in need of medical advice; this will cost you nothing.
